

Speech Example Videos

These videos are here to give you a feel for what speech can look like. Keep in mind, however, that these videos are from the final round at nationals. The people here are some of the top speakers in the nation, so don't feel intimidated if your audition pieces don't look like what you see!

That being said, we can get you to this level if you have enough determination and practice. With that in mind, watch away!

Some of these videos contain explicit/disturbing content.
